PROFILE

Second-year CS student with hands-on experience building agentic AI systems, winning national-level hackathons, and picking up new tools independently to get projects shipped. Strong foundation in Python and JavaScript, with working knowledge of LLM workflows, agent-based architectures, and data analytics. Currently upskilling in Django, Docker, and AWS to contribute across the full stack. Available immediately and committed full-time.

SKILLS

Languages	Python, Java, C++, JavaScript, HTML, CSS
AI & Tools	LLM workflows, Groq API, agent systems, Git, MySQL, VS Code
CS	Data structures, OOP, problem solving, complexity analysis
Learning	Django, Docker, AWS

EXPERIENCE

Emerging Technologies Intern — Microsoft Elevate × AICTE	Feb – Mar 2026
- Built interactive Power BI dashboards applying data modelling techniques for business insights — no prior BI experience before the internship. - Adapted to industry workflows and professional delivery standards; gained structured problem-solving exposure in an enterprise environment.	

PROJECTS

Agent-Based Sales Lead Qualification System	Python, Groq API
- Designed an agent to evaluate structured and unstructured lead data, producing scored and justified rankings for high-potential prospects. - Self-taught Groq API integration and agent orchestration to complete this project — learned the stack while building it.	
Agent-Based Research Copilot	Python, LLM tool-chaining
Built a multi-tool system combining LLM reasoning with external integrations for topic research, AI content detection, and word count analysis.	
AR-Based Heritage Villages	AR, spatial computing
Developed an AR storytelling system with spatial overlays and contextual metadata. Exploring research publication; related work accepted for presentation at ICMSCI on 6G networking.	

ACHIEVEMENTS

Runner-up — Geenovate 2K25 Hackathon	2025
Second Runner-up — Gen AI Hackathon × NASSCOM	2026
Qualifier — Smart India Hackathon (SIH) Internal Round	2025
Qualifier — Agentathon, GDG Hyderabad (Guinness World Record event)	2025

ADDITIONAL

PR Member — Google Developer Student Club	Creative Designer — IIC Student Council
Member — Cyber Security Club	Active stage and extracurricular participant
